Education

Indian Institute of Information Technology Vadodara

Bachelor of Technology
Computer Science and Engineering
December 2020 - Present
CPI: 7.39

Experience

React.js Developer

Project Cafe Technologies

May 2023 - July 2023

- Developed scalable and responsive web applications using React.js and related technologies.
- Utilized state management libraries (e.g., Redux) to efficiently manage application data and ensure seamless interactions.
- Integrated RESTful APIs to fetch and display dynamic data, improving application functionality and real-time updates.

Skills

Programming	Java, C, Python
	HTML, CSS, JavaScript, TypeScript
Framework	React.js, Next.js, Node.js, Tailwind
	Redux
VCS	Git, GitHub
Database	MySQL
DevOps	*Familiar*
	AWS, Terraform, Ansible, Jenkins, Kubernetes, Docker

Achievements

Samsung - Solve for Tomorrow

Got accepted as participant for Samsung - Solve For Tomorrow

Projects

Portfolio Website 🔗

- Design and build a responsive portfolio website using Next.js, TypeScript, Tailwind CSS, and Framer Motion.
- Created an eye-catching portfolio with dynamic data rendering and captivating animations.
- Received positive feedback for the website's design, performance, and user experience.

Netflix-Clone 🔗

- Independently developed a Netflix clone project using React, Redux, Firebase, and Google authentication.
- Implemented React for UI development and responsiveness.
- Utilized Redux for efficient state management.
- Integrated Firebase to store and retrieve data.
- Enabled secure Google authentication for user login.

Food Talk 🔗

- Experience a seamless and intuitive food ordering experience through my React.js-based Food Ordering App.
- This dynamic application showcases a curated selection of meals, fetched in real-time from Firebase, coupled with a sleek and captivating user interface.
- The app boasts essential functionalities, including the ability to add items to the cart and remove them at will

WageWorks

- Developed the payroll management system using Java with NetBeans IDE to creating a user interface to make it easy to use.
- Integrated the system with the MySQL database to enable easy access to employee data and payroll information.
